PKAS3 - Extraction

# Contents

Information . . . . .	4
One cooktop extractor . . . . .	6-442
Worktop . . . . .	7-42
direction of the ducting to the back. . . . .	8
direction of the ducting to the right . . . . .	32
direction of the ducting to the left . . . . .	38
Plinth. . . . .	43-90
direction of the ducting to the right . . . . .	44
direction of the ducting to the left . . . . .	68
Floor. . . . .	91-186
direction of the ducting to the back . . . . .	92
direction of the ducting to the right. . . . .	116
direction of the ducting to the front. . . . .	140
direction of the ducting to the left . . . . .	164
Cellar . . . . .	187-234
direction of the ducting to the back. . . . .	188
direction of the ducting to the right. . . . .	200
direction of the ducting to the front. . . . .	212
direction of the ducting to the left . . . . .	224

Two cooktop extractors . . . . . 235-464

    Worktop . . . . . 236-271

        direction of the ducting to the back. . . . . 237

        direction of the ducting to the right. . . . . 261

        direction of the ducting to the left . . . . . 267

    Plinth. . . . . 272-319

        direction of the ducting to the right. . . . . 273

        direction of the ducting to the left . . . . . 297

    Floor . . . . . 320-416

        direction of the ducting to the back. . . . . 321

        direction of the ducting to the right. . . . . 345

        direction of the ducting to the front. . . . . 369

        direction of the ducting to the left . . . . . 393

    Cellar . . . . . 416-464

        direction of the ducting to the back. . . . . 417

        direction of the ducting to the right. . . . . 429

        direction of the ducting to the front. . . . . 441

        direction of the ducting to the left . . . . . 453

# Information

To make it easier for you to work with standard planning situations, which we have illustrated in our so-called sample plans, we have created two planning booklets for each product series.

For each product family, there is one planning booklet for exhaust air solutions and one for recirculation air solutions.

With the one-off download of 10 planning booklets, you have access to the complete range of our more than 500 sample plans. By simply linking to the table of contents and using the inserted bookmarks, you can find the planning you need easily, quickly and effectively.

We will be happy to check your installation situation and parts list. Simply send us the floor plan of your kitchen design and the following information by e-mail to [planung@bora.com](mailto:planung@bora.com):

Which BORA system is being planned?

Should the system be operated with exhaust air or recirculated air?

Necessary information for...

- ... Exhaust air:      Desired position of the wall box on the outer wall?  
                            Level of the duct routing (plinth area, floor structure, or on the basement ceiling)?  
                            If applicable, route of the exhaust air duct, if direct route not possible.
- ... Recirculation:    ULBF or ULB3X air purification box

You can reach us for further questions by telephone at  
+49 (0) 80 35 98 40 - 140.

# Naming Sample Plans

„speaking numbering system”

Quantity exhaust modules	System	Version	Level	Offset	Direction	End of Ducting	Special
-	PKA3 Professional 3.0	A – exhaust	0 – without	0 – without	0 – without	0 – without	0 – without
2	PKAS3 Professional 3.0 compact	U – recirculation	1 – worktop	1 – EFRV	1 – back	1 – UEBF	1 – hanging
	CKA2 Classic 2.0		2 – plinth	2 – EFRG	2 – right	2 – UEBR	2 – standing
	P X Pure/M Pure/ Pure		3 – floor construction		3 – front	3 – swanneck UEBF	3 – blind corner
	SP S Pure		4 – cellar		4 – left	4 – swanneck UEBR	4 – upright
	B Basic					5 – ULBF	
						6 – ULB3X	
						7 – PULBTA	

Example:

2 PKAS3 A 2 1 4 4 0

2 cooktop extractors Professional 3.0 compact exhaust version, plinth, ducting to the left with swanneck and UEBR

one cooktop extractor
